CROWS' NEST PASS GOLF ASSOCIATION

In connection with the big golf tournament held at Fernie over the week end, the re-organization of the Crows' Nest Pass Golf Association was effected, as follows: president, Wm. Stevenson, Hillcrest; first vice-president, Alan Graham, Cranbrook; second vice-president, M. G. Rhynas, Blairmore; secretary-treasurer, M. G. Rhynas, Blairmore. These officers and the presidents of the various clubs of the district will form the association executive.

Blairmore was chosen for the 1929 tournament.

Blairmore, Coleman, Hillcrest, Bellevue and Pincher Creek were well represented at the tournament.

L.O.D.E. MEETING

A regular meeting of Crows' Nest Chapter of the L.O.D.E. will be held at the Greenhill hotel on Monday evening next at 7.30. As this will be the last meeting of the season, a full attendance is requested.

COWLEY SPORTS NEXT WEDNESDAY

The annual field day and sports will be held at Cowley on Wednesday next, commencing with a baseball tournament at 10 a.m. A splendid programme has been arranged and with favorable weather a gala day is assured.

At night there will be the usual big dance.

COUNCIL CONSIDERS SIDEWALKS EXTENSION

The principal business at Monday night's meeting of the town council was consideration of the plan to extend concrete sidewalks from Beebe's corner to the Green residence, a distance of about five blocks. The only drawback at present is delay on the part of property holders within the area in signing up agreements to pay a portion of the cost direct, as has been done formerly, the major portion to be met through general taxation.

Another very important question arose when a prominent citizen asked to have a pet bitch converted. Upon motion, the request was granted.

A number of accounts were passed for payment and the new chairs were officially blessed and dedicated. The mayor and all councillors were present.

A grant of \$50 was made to the Canadian Legion, to go towards the funds for the purchase of prizes for the July 2nd children's sports.

NEW TELEPHONE BUILDING COMPLETED

The new telephone exchange building was brought to completion by the contractors yesterday and the official transfer to the telephone authorities takes place today.

ANNUAL MEETING OF THE BLAIRMORE BOARD OF TRADE

The annual meeting of the Blairmore Board of Trade was held in the office of the Crows' Nest Pass Motors on Thursday night last and was very well attended.

The election of officers resulted as follows:

Honorary presidents—Jules Charbonnet, G. A. Vissac and Mayor Farber.

President—Lance L. Morgan (re-elected).

Vice-President—W. A. Beebe (re-elected).

Secretary-Treasurer—W. W. Scott (re-elected).

Executive—J. E. Gillis, A. Greig, A. Morency, E. A. Harper, W. J. Bartlett, W. H. Chappell, M. H. Condon, A. E. Ferguson, J. A. Kerr, L. P. Robert, M. Sargis, C. J. Tompkins and J. R. Smith.

Following an address by Mr. Arthur Baker, of the Western Canada Road Route Service, Ltd., the board decided to again affiliate with that organization.

Various matters were discussed, particularly that of opening up a connecting link from Crows' Nest south to the new Corbin road, a distance of about eight or nine miles. This could be accomplished at a cost of around \$500 and several substantial subscriptions for the purpose had already been offered.

It is also proposed to erect attractive signs on the main trail entering the town from east and west.

A membership drive will be undertaken within the next few weeks.

MINER DIES IN THE MAPLE LEAF MINE

A young man named John Cotton, French-Canadian, died in the mine at Maple Leaf on Tuesday of this week from unknown causes.

He had only been working there a few days and on Tuesday morning was found by a fellow workman to be in a fainting mood. Two miners took him to the surface, but before reaching that point the young man died.

A post mortem examination conducted by three local doctors at Blairmore failed to disclose the cause of death and parts of the body were on Wednesday sent to Edmonton for analysis.

Cotton was twenty-one years of age. The remains will likely be laid to rest today.

To produce a work of art, you must first master the art of work.

The new structure of bungalow design, is a real ornament to the town and when the surrounding grounds are completed with shrubs, trees, etc. it will be quite attractive.

The new switchboard is expected to arrive from Montreal at any time and when installed will assure this district of the most up-to-date service.

The new building will be occupied about June the 25th.

WORLD HAPPENINGS
BRIEFLY TOLD

Premier King, replying to a question in the House, said the Government had no intention of establishing legations at Buenos Aires and Mexico City.

Partial prohibition has been decreed in Tabasco, Mexico, by the State Government. An order was issued making it unlawful to sell any alcoholic drink except beer and cider.

There will be no Canadian cadets sent to the Junior Bliley rifle meet this year, it has been announced. Word has been received that a team would have to pay its own expenses.

Three delegates from Soviet Russia will attend the International Wheat Pool conference to be held in Regina on June 5 to 7 inclusive, according to word received by C. P. Burnell, chairman of the International Conference Committee.

Gerald T. Evans, of Vancouver, B.C., won the Butherford gold medal in biochemistry, it was announced at McGill University, when the second year results in the Faculty of Medicine were posted.

A matter of fact statement in the official Turkish newspaper Milliet says that the Sultanahat Government has passed a law forbidding the importation and use of calculating machines in Turkey under severe penalties.

E. S. Hertley, cable engineer, has gone to Victoria, B.C., where he intends to reside. Mr. Hertley visited the Pacific coast in 1926 in connection with laying of the duplicate cable between this country and Australia.

Hon. Philippe Roy, Canadian Commissioner in Paris, may be Canada's first minister to France. This was indicated by the Prime Minister when the vote of \$75,000 for representation to Paris was discussed in the Commons.

The application of the Winnipeg Board of Trade for a revision of the regulations applying to attendants travelling with race horses has been rejected by the Board of Railway Commissioners. The application was to permit more than two attendants to travel free in cars with race horses.

Norse Celebration in Winnipeg

Expected To Be the Largest Gathering of Norwegians Ever Held in Canada

The Norse celebration at Winnipeg from July 5th to 10th, promises to be the largest gathering of Norwegians held in Canada. It will be an international gathering, for thousands of Norwegians are expected from the United States and representative men from Norway will be present. Many of the Canadian and United States Bydelags, or Norwegian Societies, and the League of Norsemen of Canada have arranged to hold their biennial meetings in Winnipeg during the week of the celebration.

Besides a good program of recreation, music and speeches, there will be Norse art exhibits, several of which are being brought from Norway. The feature of the festival program to be given will be the numbers by the 1,000-voice choir of the Norwegian Singers' Association of America.

There are about 73,000 persons of Norwegian birth and origin in Canada of whom 62,000 are in the provinces of Manitoba, Saskatchewan and Alberta.

Varied Farm Activities

Some unusual sights were to be witnessed in the farming territory of Southern Alberta recently. In the same district it was possible to see ploughing, discing, seeding, threshing and hauling grain to the elevator at one time.

Build Eighteen Elevators

Eighteen elevators are being constructed by the Alberta Wheat Pool. Each will have a capacity of 30,000 to 40,000 bushels.

An English paper suggests that it is not so hard to escape from a flapper, "but a widow knows all the de-tours."

Walk in Peace

Remove the hard skin from your corns, apply Minard's freely and get comforting relief.

Airmen in New Venture

Aviators Used To Check Speed of Bullet in Western Canada

Shooting spores from an aeroplane is the latest venture among aviators in the Royal Canadian Air Force. It has some of the fascination of a fast game, in addition to being an important undertaking for Canadian agriculture.

For the past few years the Canadian Federal Department of Agriculture has been trying to combat wheat rust, which makes its appearance in the great wheat fields of Western Canada, by working from the ground. The Department has now enlisted the aid of the Royal Canadian Air Force. The airmen, including a technical expert in agricultural bacteriology, are provided with sensitized plates which are exposed to the air, spores of wheat rust, floating at high altitudes, are caught on the plate and analyzed.

The spores have been detected at a height of 5,000 feet, and the fliers have run into clouds of these invisible organisms which have registered as many as 5,000 to the centimeter. The spores float at an altitude and when there is a rainstorm they are precipitated and thus the rust appears in widely separated areas and without any visible means of contact. The use of sensitized plates and the airplane has revealed how rust has spread in the past, and provides a means of checking one of the menaces to the wheat crop of Western Canada and the Western States.

Use of Electric Power Increasing

Canada Is Second in Per Capita Consumption of Electricity

Norway, Canada and the United States lead the world in the per capita consumption of electricity says the Geological Survey of the United States. Figures given by that authority place Canada's consumption in 1927 at 1,320 kilowatt hours per capita, compared with 690 kilowatt hours in the United States. That for Norway is given as 2,400 kilowatt hours in 1925. Other statistics given in the statement afford comparisons with available data for Canada showing progress on the North American continent in 1927. The increase in output of public utility plants in the United States from 1926 to 1927, was about 9 per cent. The output of central electric stations in Canada according to official figures of the Dominion Bureau of Statistics in the same period gained 12½ per cent.

The two statements also afford a comparison in the relation which water power bore to total output. In the United States the amount produced by water was 37 per cent. In Canada, 68½ per cent was produced by water power, only 1½ per cent of the electricity of central electric stations being produced by fuel. Bulletin by the Department of the Interior, through its Natural Resources Intelligence Service.

Cannot Locate Owner

Ireland Unable To Collect Taxes On Valuable Land

How to collect taxes from a land that nobody owns and yet is occupied is puzzling the Mayo County Council of Ireland. In Letterbriff, North Mayo, are 2,251 acres, the owner of which cannot be found. Some time ago the Land Commission bought the estate of the lands which are part, but refused to include them as they consisted mostly of mountain land and could not be used for farming. The adjoining tenants have taken possession of the mountain and now graze it in common. The Land Commission is unable to interfere, and the Mayo County Council wants the users to pay taxes on the land, but cannot compel them to do so because they are not the legal rated occupiers.

Man may want but little here below, but he wants it just as quick as he can get it.

Farmers' Marketing Tour

Canadian National Railways Tour To Great Britain and Denmark, 1928

Continued.

The Co-operative Wholesale Society embraces almost every conceivable form of modern industry and commerce. It manufactures everything that the modern household needs. It owns a fleet of ships, a printing establishment, warehouses, fishing stations, tea plantations in Ceylon and farms in the British Isles. It operates a bank, which has an annual turnover of several million dollars. Its Sun Flour Mill is the largest in Europe and works day and night. Here great quantities of Canadian wheat are regularly used. This was our point of inspection. We were all equipped with long white coats and spent two hours seeing this tremendous mill.

Following our visit to the C.W.S., we were ready for one of the outstanding functions it was our privilege to enjoy during our trip—the reception by the Lord Mayor and Lady Mayoress of Manchester. Over 1,200 citizens of Manchester assembled in the Guildhall to meet us and the spectacle as all these people stood in the main body of the brilliantly lighted hall, while we were welcomed by the Lord Mayor, is one that will never be forgotten by those who attended.

On the morning of the 20th we were taken through Trafford, one of the greatest and most modern industrial sights of England. Here there were vast stores and huge facilities for products from every quarter of the globe that find their way to Manchester. Some Canadian wheat was on view, but competing products from Ireland, Denmark and other countries were more numerous.

We saw the great sales houses where cotton is stored and after which the latest cotton storage of New Orleans have been modelled. We were here privileged also to see one of the greatest industries of England—the Metropolitan-Vickers Electrical Works—the magnificence of which could hardly be described by one who has not seen it. Here is made everything electrical from the equipment of power stations to the smallest domestic appliances. In the main shops some of the great sales is 900 ft. long, 60 ft. wide, the over-all width of each shop being 40 ft., and 80 ft. from the floor to the ridge of the roof. Each of the two main aisles is spanned by three or four fifty-ton electric cranes, which can be swung up from any part of the floor.

We were next taken for a trip down the great Manchester Canal, by which the ocean-going steamers reach the very doors of the city, 35 miles inland. Accompanied by the Chairman of the Board and many other officials we were enabled to view the great shipping of the port and pass through lock after lock toward the sea. During this trip we saw a swing bridge over the Canal open to let our pleasure party pass and when it closed we saw, to our astonishment, that the swing bridge itself was part of a small canal on a higher level and a few seconds afterwards a number of barges passed over it.

The Manchester Ship Canal might be said to be one of the wonders of the world. Though a purely industrial company, it is owned by 40,000 shareholders, many of them laboring men. The rise of Manchester to its present position as a port, is almost entirely due to the completing of the Ship Canal. The long hard parliamentary fight for its construction developed in Manchester a co-operative spirit and civic pride which would be hard to duplicate in even a modern Western Canadian town.

After viewing the Ship Canal we were the guests of the company to a magnificent lunch in the Midland Hotel, to which were gathered the leading business men of Manchester.

Following this we paid a short visit to the Royal Exchange, the largest ground-floor space of one and three-quarter acres. Unlike trading exchanges in our country, seats are not owned, but members join on an annual fee basis. The Royal Exchange of Manchester represents chiefly the cotton industry and those allied to it.

"High chimes" is on Fridays, when as many as 7,000 men may sometimes be seen gathered together buying and selling on the floor of this Exchange.

Our journey from Manchester to Wolverhampton provided a mild adventure, for by the time the coaches had reached Knutsford, a little town made famous by Mrs. Gaskell, in her story "Cranford," a fog blanket had fallen. We "dove in," wondering if we would be able to continue the remaining 60 miles, or if this fog would mean a night in the coaches by the side of the road, or even chance of being rammed from behind by other motorists. After an hour's wait, however, the fog lifted somewhat, and it was decided to push on as long as our drivers could see a yard ahead of them. The headlights were turned to the side of the road and with one man standing on the running board we made progress at about five miles an hour. During this long and tedious journey we sang songs and told stories whiling away the time after all quite pleasantly.

We reached Wolverhampton at 11:30 where, notwithstanding the late hour we found the Mayor (Councillor A. E. Wood), waiting for us and a steaming supper which was certainly welcome. In the circumstances, the Mayor held us formally to a small town to join him after supper in the lounge where we were entertained. Here also we met Mr. W. Brown, of the London Office of the Canadian National Railways, who, besides his business, has a first class reputation as a Canadian singer, and kindly gave us of his best. We left Wolverhampton immediately after breakfast for the ham and bacon factory of Messrs. Marsh & Baxter, at briefly Hirt, a small town, a short distance out of Birmingham. This plant is one of the finest of its kind in the country and Messrs. Marsh & Baxter are the largest bacon curing firm in Great Britain. The Company believe that to maintain quality in their products, the very finest raw material must be used and to this end they have a large campaign amongst the farmers who supply them.

(To Be Continued.)

Recipes For This Week

(By Betty Barclay)

LIGHT LUNCH CROQUETTES

Two cups left-over meat or fish may be mixed with 1 cup thick cream sauce for croquettes. Mold in desired shape, roll in dried bread crumbs, then in beaten egg, again in bread crumbs and fry in hot fat. Thick cream sauce calls for 1 cup milk, 1-3 cup flour, 3 tablespoons butter, ½ teaspoon salt and a touch of pepper.

RHUBARB PUNCH

1 quart rhubarb.
1 quart water.
1-3 cup orange juice.
4 tablespoons lemon juice.
1½ cups sugar syrup.
Few grains salt.
1 pint mineral water.
Cut rhubarb in small pieces, cook with water until fruit is soft. Strain through double thickness of cheesecloth, add orange juice, lemon juice, sugar syrup and salt. When ready to serve pour over a cake of ice in a punch bowl, add mineral water and allow to get very cold. Makes 5 glasses; 24 punch glasses.

Big Aerial Camera

Machine Has Five Mile Range and Pictures Four Square Miles

An aerial camera with a range of more than five miles, designed to photograph areas as large as four square miles, has been built for the United States army air corps, the manufacturers announced.

It received its first test at New York, and was sent to Wright Field at Dayton, O., where it will be installed in an army plane for extensive experimental photographic work.

The camera was made by the Fairchild Aerial Camera Corporation for use at altitudes at which photography never before has been attempted and beyond the range of anti-aircraft guns.

The per capita consumption in Canada of wheat ground for food for the years 1919-27 averaged 4.7 bushels.

There are times when the almighty dollar will not go as far as a little politeness.

SUNDAY SCHOOL LESSON
JUNE 10

THE ARREST AND TRIAL

Golden Text: "He was despised and rejected of men;—Israel 53.3. Lesson: Mark 14:1 to 15:15. Devotional Reading: Isaiah 53:1-6.

Explanations and Comments

Pilate Questions Jesus, verses 1-5.—It was about six o'clock in the morning when the chief priests and the elders and scribes, the whole council or Sanhedrin after holding a meeting, declaring Jesus worthy of death and binding him, hurried him to the Praetorium where Pilate held his court. Pilate was obliged to come out to them, for the priests would not pollute themselves by entering a Gentile court just before the Passover (John 18: 28, 29). They demanded that Pilate confirm their sentence of death pronounced upon Jesus. Pilate demanded to know what charges they brought against him. Three accusations they put forward: Pilate was concerned about one of them only. "Art thou the King of the Jews?" Pilate questioned. The Sanhedrin made this accusation against him because they needed a political charge, one hostile to Roman supremacy, in order to influence Pilate. Perhaps there was something of contempt and something of pity in Pilate's voice as he looked at the wearied Prisoner, and thought him a pathetic picture of royalty. Pilate had the right to know the truth, and Jesus answered "Yes," as the literal translation of the Greek for "Thou sayest?" means. (The Expositor's Greek Testament thinks one is hardly prepared for such a reply to an equivocal question, and says there is a temptation to seek escape by taking the words interrogatively—Dost Thou say so?—or evasively—You say so, I make no statement.)

When the chief priests accused Jesus of many other things, he was silent. "Answerest Thou nothing?" said Pilate. "Behold how many things they accuse Thee of." Still Jesus stood in regal silence, and Pilate marvelled. Jesus knew that no words would influence that mob in their frame of mind. "I read very little in the life of Jesus respecting His rights," F. W. Robertson writes, "but I hear a word respecting His wrongs—wronged born with majestic, God-like silence."

"I have had to learn to keep absolutely quiet under every accusation."—Lincoln.

Praise For Canada

Mrs. Stanley Baldwin Cannot Imagine Anything Nearer

"If England ever gets tired of us, the prime minister and I will probably go to live in Canada, that is if we are not too old, for we were so delighted with the Dominion on our recent visit."

This was the declaration of Mrs. Baldwin, wife of Great Britain's premier, Stanley Baldwin, when addressing the girls at a distribution of prizes at the City of London school.

Mrs. Baldwin urged the girls to go to Canada for, she said, "there is no better place for young married people; and providing girls choose the right kind of men, I cannot imagine anything nearer paradise."

New Assistant: What is in that red bottle?

Old Hand: That's the medicine we give customers when their prescriptions are illegible.

With nearly 2,500 convicts serving terms in Canadian prisons, less than 100 are Negro, Indian or Mongolian.

Particularly Smart

Novelty woolen is used a great deal in daytime models, and it is particularly smart in combination with cotton fabric crepe or plain woolen in harmonizing tone. Style No. 801 features soft shirring to mold the blouse. Shirring is repeated at shoulders in front to provide fullness to bodice. The French V-front adds length to silhouette. Crepe satiny, sheer crepe, flat silk crepe and wool crepe are fashionable. Pattern in sizes 26, 30, 32, 34, 36, 38, 40 and 42 inches bust measure. Size 36 requires 3½ yards of 40-inch material with ¼ yard of 36-inch contrasting. Price 25 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

"THE TOWN BEAUTIFUL"

Everybody loves and admires beauty. Beauty is one of the divinest forces that life holds. It is based fundamentally on order, symmetry and harmony. The capture of a beautiful face; the blend of colors in a masterly picture; the charm of a beautiful woman—all these have their universal appeal.

The city or town in which our home is made should be no less beautiful in our eyes than the countryside we repair to in summer time, the mountains or the seashore. Our quest of beauty should begin where all good things begin—at home. The community reflects the spirit of those who compose it. If we have beautiful thoughts, and the inherent love of beauty which is our portion in the land of the living, we shall not be content with a city or town which does not mirror the beauty that possesses us. We shall want our home town to be beautiful, wholesome, orderly, healthy, virile, and a place of which to be proud.

"Clean-up Week" comes as a boon and a blessing to many an unbecomingly beautiful community. It holds up an ideal. It says: "Make the Town Beautiful." It imposes a duty. It offers, in the scriptural phrase, "Beauty for ashes." Such a week reminds us of the saying that if the streets of the New Jerusalem are to be kept clean it will only be by everybody sweeping before their own doorstep. Hence it will be an incentive to work hard and enthusiastically for the place we love.

There is a sacred obligation resting upon homebuilders to keep the house, the home clean. If the full meaning and significance of home is truly realized it will be seen that home is not confined within our walls. Home is where we live, where we find our work to do and make our living, where our loved ones share our life, the busy street, the community. Therefore the lanes, the byways and the highways should be made clean and kept clean, so that the streets may be safe for the children to play in, and the children to be healthy, happy and beautiful and radiant in "The Town Beautiful" we have builded for them—Ex.

We commend the above to our readers as a reminder that "Clean-up Day," Monday next, is worthy of observance. Every citizen should feel it a privilege and duty to do his or her part in the effort to maintain a clean and beautiful town.

RECKLESS DRIVING OF AUTOMOBILES WILL BE STOPPED

As a result of the determination of the police authorities to curb the reckless driving of motor cars, all too prevalent lately, there have been many cases during the last week before the local cad. Convictions have been secured and fines imposed, and we are glad to say that the end is not yet, as the police have their eyes on a number of local speed artists as well as some who visit Kimberley periodically from other places. It is rumored that the next offenders will have a chance to see our jail. Few would worry about the fast pace set by the speed-mad fools, who, if as a result of their stepping on the gas they should shuffle off this mortal coil, as in many cases they would be little missed. It requires little brain to open up a throttle, and while there may be exceptions, it is a safe rule that the more open the throttle the more vacant the head behind the wheel. The trouble is that the other fellow who is careful has to suffer for

MUSIC EXAMINATION RESULTS

At the recent examination in music of the Associated Board, Royal Academy of Music and Royal College of Music, London, England, the following pupils of the B. J. K. R. M. A. M. were successful:

Local Centre, Intermediate Grade: Rudiments of music—Jean Greig, Catherine Davidson, Alice Horsquist, Laura Johnstone.
Local Centre, Intermediate Grade: Piano—Jean Greig, honorable mention; Catherine Davidson, honorable mention; Alice Horsquist, honorable mention; Laura Johnstone.

Higher Division—Marie Olson, honorable mention; Kathleen Cassick, Grace Key, Albert Christie, Ralph Wootton (singing).

Lower Division—Douglas Bevan, Evelyn Bennett, Margaret McDonald.
Elementary Division—Betty Thompson, honorable mention; Virginia Olson; Betty Greig, honorable mention; Marion McDonald, Marion Burrill, Willie Burrows, Leona McDonald, honorable mention.

Primary Division—Baldina Petrovsky, Rudolph Kwany, Jean Upon, Blodwyn Evans, Lillian Packer, Verna Packer, Dorothy Cassick.

Examinations for mining certificates for the province of Alberta are this week being held in the Lodge Hall, with Mines Inspector M. Johnson and Messrs. L. P. Robert and E. Williams presiding. Sitting for the examinations are: For first-class certificates—Luke Lindoe, Coleman; W. J. Hibbert and Frank Yates, Michel, and Mark Piard, Bellevue. For second-class—E. Roffe and W. J. Balkwill, Hillcrest; James Gray, Coleman, and A. Womersley, Blairmore. The examinations will be concluded tomorrow.

BLAIRMORE UNITED CHURCH
Rev. J. W. Smith, Pastor.

Serve the church that the church
may serve you.

Services for Sunday, June 10, the
pastor in charge.

SENIOR SCHOOL at 11 a.m. All
young people 12 years and over are
invited.

JUNIOR SCHOOL at 2 p.m. For
children under 12 years.

EVENING WORSHIP at 7.30.

A SPECIAL

THANKSGIVING SERVICE.

This is the third anniversary of the consummation of union between the Presbyterian, Methodist and Congregational churches in Canada to form the United Church of Canada. The pastor's subject will be: "Why We Believe in Church Union." This is one of the most vital religious questions of the present time and it will be dealt with quite frankly by the minister.

WESTERN CHURCHES
MAKE GOOD ADVANCE

"Whereas a few years ago three churches were functioning in Viking in the place of the present one, and receiving among them upwards of \$1000 missionary money, the United church is not only self-supporting but in nine months subscribed \$350 to the missionary and education fund of the Dominion church," says the Edmonton Journal's report from Viking, Alber-

Not to be outdone, The Saskatoon Star tells of Duval United church, where a membership of sixty-one persons propose to "go off the Home Mission Fund" and pay its own minister in future, starting at a stipend of \$2000 from June next.

These accounts are not rare, at least six other congregations of the United Church of Canada in Alberta have become self-supporting this year.

AT ST. ANNE'S CHURCH

A New Tire

with sinews of Pure Rubber

Every "GP" Gum Cushioned Tire is an athlete—always in the pink of condition—capable of enduring the long grind of many thousands of miles without cracking under the strain. "Gum Cushioned" is the term applied to the sinews of pure gum placed between the cord layers to cushion the tremendous shocks of the road. Think of the advantage of entrusting your car to four such athletes as these, knowing your "GP" Gum Cushioned Tires are meeting and overcoming the adverse conditions of the road. The nearest "GP" dealer will attend to your tire requirements.

"Gutta Percha" Tires GUM CUSHIONED

East Will Again Meet West

1. The Trans-Canada special train takes the tourists across the Dominion by one route and back by another. 2. The scenery at Banff, enjoyed by the travelers, is shown in its most beautiful on the coast. 3. The trees in Stanley park, Vancouver, were growing before Columbus discovered America. 4. One of the C.P.R.'s most powerful locomotives, used for transcontinental travel. 5. Wacky Westerners leading a wild life.

So successful and popular have the trans-continental expeditions of past years proven and to excellent have the results been proclaimed, that this summer the Fifth Annual "Across Canada and Back" tour, promoted by Dean Sinclair, Laird of Macdonald College, St. Anne de Bellevue, P.Q., over the lines of the Canadian Pacific Railway, will be undertaken this year, it has been announced by the C.P.R. offices in Montreal.

This tour leaves Toronto on July 23 by special train, traveling west via Sudbury, Port Arthur, Winnipeg, Indian Head, Moose Jaw, Calgary, Banff, Windermere, Nelson, Penticton, Vancouver, and Victoria, and returning east by Emerald Lake, Yoho Valley, Lake Louise, Edmonton, Saskatoon, Winnipeg, and down the Great Lakes by steamer from Port William past Sault Ste. Marie to Port McNichol, and thence by rail to Toronto.

Of Educational Value.

Although the traveler is interested chiefly in the attractions of the tour such as scenery, "sights" and novel experiences on route, the educational phase is one highly considered by its promoters. The bulk of the minor difficulties and differences that

arise within the Dominion are the result of lack of mutual understanding by the various component parts of the country in the problems of the others. Mutual understanding and appreciation can only be achieved by interest and knowledge, and these are best acquired by travel and personal visits to the other parts of Canada and intercourse with one's neighbors.

Passengers on board the C.P.R. special "Across Canada and Back" train will not only enjoy the glories of western scenery, the invigorating breezes of the Pacific, and the delightful voyage down the Great Lakes; but they will also become acquainted with the life of their Western compatriots. As they pass through the country they will see the industrial and agricultural activities in progress and enjoy Western hospitality as well as scenery.

Under the leadership of one of the most prominent and popular educationalists in Eastern Canada, Dean Sinclair, Laird of Macdonald College, and composed chiefly of travelers from Eastern Canada, the visit will accomplish the aim of furthering common knowledge and making the Easterner better acquainted

with the Westerner, and vice versa.

Motorist Included.

The twenty-one day tour will give the motorists participating a comprehensive and attractive view of the west. Arrangements have been made to break the journey in many interesting ways. Motor drives will be taken through Banff and Windermere over the famous 104 mile highway along the new "Great Divide Highway" from Field, B.C., via Emerald Lake and the Yoho Valley, and Wapta, Banff, and Jasper, and through the quiet Dinosaur country and the fertile Okanagan valley.

Steamships will not only be taken down the Great Lakes, but also on Kootenay Lake, and across the Straits of Georgia between Vancouver and Victoria on the Pacific coast.

The equipment of the special train will include dining cars, sleeping cars, drawing room and compartment cars, a special baggage car fitted with dressing rooms and wardrobe accommodations, and observation cars, which will be an open-top type during the journeys through the mountains. The train will even have special news bulletins and receive copies of local newspapers along the route.

Here and There

(30)

Invited to see Montreal by the hotels and the tourist and convention bureau of the city, 75 members of the Massachusetts Hotel Men's Association spent a week-end recently there and were given a royal reception. As their president, Emil Coulon, said, "We came to sell New England to Montreal, but you have sold Montreal and Quebec province to us."

During the usually quiet immigration months of December and January the Canadian Colonization Association colonized 75 families who took up land to the extent of 22,734 acres. In 1927 the Canadian Pacific Railway, through its land department and its subsidiary (the C. C. A.) placed 2,694 families on Canadian farms, this including 836 families averaging 5 persons to the credit of the Association and 1,529 families on C. P. R. lands.

The movement of British youth to Canada promises to be considerably heavier than usual, due to new arrangements made with the British Government. Ontario is taking 500 boys, Manitoba 50 and the Maritime Provinces and Saskatchewan an indeterminate number, while some hundreds are to be moved by private organizations. In all it is estimated some 2,000 boys will probably be brought out under the new scheme this summer.

Another body of sportsmen are finding Montreal and Eastern Canada a good place in winter as well as summer. The Appalachian Mountain Club, of Boston, picked the best period of the winter season to spend a week in the Laurentians mainly devoted to skiing, but with sleighing, dog-mushing and tobogganing thrown in. It was the first time they had ever visited this district in winter and they are going to repeat it.

Resignation of Colonel Walter Maughan as Canadian Pacific Steamship Passenger Traffic Manager has been followed by the appointment of William Baird, who was assistant European Manager of the Canadian Pacific Railway in London, Eng. Mr. Baird, whose appointment is effective March 1, joined the Allan Line steamship company at Glasgow as junior clerk in 1906 and came into C. P. service when that company took over the Allan Line in 1916.

Bee keeping in Saskatchewan made marked progress in 1927, there being an increase of 45 per cent in the number of colonies over those of 1926 and an increase of 191 per cent in the 1927 honey crop over that of the previous year. The number of spring colonies in 1927 was 3,803 which increased to 5,962 by the fall count. The production of comb honey for the year was 64,042 pounds and of extracted honey 456,192 pounds, making an average production per colony of 143½ pounds.

Airplanes are now being used to herd vast numbers of reindeer in the big Arctic stock farms, according to Ralph Lomen, pioneer of the reindeer industry of Alaska. "It's a new idea and it's not being practiced regularly, but herding by planes seems feasible," said Mr. Lomen. "Our head herdsman went out recently and in two hours accomplished as much as would otherwise have required a week with six men. There is room for 12,000,000 reindeer in the northern tundra of Canada and such a herd would be worth \$50,000,000 if it could be done in 50 years if Canada started now in a modest way."

"Talking about curious golf experiences," remarked the chatty man, "I once saw a Northern golfer drive a low, skimming ball across a river. The ball was nearly over when a sal-

Express Cargo Steamers For C. P. R.

The fourth of the five 10,000 ton cargo steamers under construction in the Old Country for the Atlantic service of the Canadian Pacific was launched recently from the yards of Messrs. Barclay, Curle and Co., Glasgow. With appropriate ceremonies and in the presence of a large gathering of Canadian Pacific Officials, the new ship was christened the "Beaverhill" by Miss Mavis Gillies, (niece) daughter of Captain James Gillies, general manager of the Canadian Pacific Steamships Ltd.

When these new steamers are delivered, the Canadian Pacific cargo fleet will be augmented by five of the highest type of express cargo steamers and capable of maintaining a speed of 14 knots an hour, which is regarded as exceptional for cargo steamers. The marked growth of ocean trade between Great Britain and Canada via the St. Lawrence route, has prompted the Canadian Pacific to augment their freight service to this extent. These vessels will be used to maintain a weekly service between Canadian ports and those in Great Britain and on the Continent.

The new freighter, like her sister ships the Beaverburn, Beaverdale, Beaverford and Beaverbrar, is 520 feet in length 61 and a half feet in width with a deadweight carrying capacity of approximately 10,000 tons and a load draft of 27 feet; but should a need arise as much as 13,000 tons may be carried on the maximum load draft. The ships will be driven by twin screws.

Low
Priced
yet
every inch
a truly
fine car

It is almost inconceivable that a car so low in price as the "Bigger and Better" Chevrolet should possess so many quality features. The minute you step into the "Bigger and Better" Chevrolet, take the wheel in your hands and step on the starter, you realize that, no matter what the price, you are in a really fine car. For the interior luxury of Chevrolet... its smooth, powerful motor... its quick response to accelerator and brakes... its riding comfort... its up-to-date completeness... all bear out the impression of big-car quality conveyed by the exterior beauty and style of the new Chevrolet Fisher Bodies. When you have looked closely into the deep-rooted, far-reaching quality of the "Bigger and Better" Chevrolet, you will appreciate how ridiculously low are the new Chevrolet prices.

The G.M.A.C. General Motors own deferred payment plan affords the most convenient and economical way of having your Chevrolet on time.

Boy Globe Circler Crosses Dominion

1. Palle Huld and Halfden Burren drawing lots for the winning ticket. 2. The young traveller photographed on a C.P.R. engine at Montreal.

Travelling light with little more than a toothbrush and a pair of pyjamas, young Palle Huld, fifteen-year-old Danish globe circler, passed through Montreal over Canadian Pacific lines, on Monday, March 12, having crossed the Atlantic from Greenock, Scotland, on the Canadian Pacific liner S.S. "Montcalm".

On the centenary of Jules Verne's birth, a leading Danish newspaper, the "Politiken", conceived the original idea of sending a representative around the world on the regular travelling schedule of 46 days, so as to make apparent the differences of travel of 1873 and 1928. To that end a new Phineas Fogg was required, and the editor of the newspaper decided that it should be a boy of between 15 and 18 years of age. A full page advertisement was placed in local papers, and young Huld was chosen. The same day as the advertisement appeared—at two o'clock, as appointed, the stairs, offices, and private rooms of the "Politiken" building were crowded with two

who wanted to go round the world. It was some scene, and it was soon seen that it was not even necessary to get a youth of eighteen years, there were boys of sixteen who would do quite as well, and finally the fifteen-year-old boy proved as capable as the others. A correspondent just returned from China and the revelation there, examined the boys one after the other. They all had a thorough examination, their permission from their parents in their hands they stammered out their wild desire to get the exciting chance—and finally five boys were selected. Out of the five two proved the best. They were Palle Huld and Halfden Burren. They were both equally fitted for the journey, everything justifying their selection. As no one liked, however, to rob the idea of his chance a new idea was hit upon. They must draw lots. A hat was placed on the back of a chair, the lots thrown into it, they put down their hands—Palle Huld looked at the fascinating word: "Going!" He was the lucky one.

He left Copenhagen on Thursday, the first of March, and he expected to be back, as he has promised, in 46 days.

Palle Huld sailed from Greenock, Scotland, on March 3, on the Canadian Pacific liner S.S. "Montcalm". He reached Montreal on Monday morning, March 12th, and left that evening for Vancouver, where he sailed for Yokohama on board the C. P. R. flagship the "Empress of Canada". Arrangements for his further trip to Korea, China, Soviet Russia and back to Copenhagen are in the hands of the Canadian Pacific Railway.

Who is he, then? A plucky young fellow with a boyish, dark blue flash in his eyes, red flaxen hair, blond as a Northern Viking and yet a slim schoolboy, 15 years old. He is not a bit afraid. He got permission from his manager to leave the business, where he is an apprentice, for two months, and after the lucky result, rushed to his mother: "Mother, do you know, I am to go round the world!"

He left Copenhagen on Thursday, the first of March, and he expected to be back, as he has promised, in 46 days.

Palle Huld sailed from Greenock, Scotland, on March 3, on the Canadian Pacific liner S.S. "Montcalm". He reached Montreal on Monday morning, March 12th, and left that evening for Vancouver, where he sailed for Yokohama on board the C. P. R. flagship the "Empress of Canada". Arrangements for his further trip to Korea, China, Soviet Russia and back to Copenhagen are in the hands of the Canadian Pacific Railway.

Here and There

(79) The Rocky Mountain Lakes fishing season was opened recently with a catch of a thirty-two pound lake trout by George Andrews of Banff, in Lake Minnewanka. A number of others of not such a great weight were caught by guests of the Banff Springs Hotel.

The month of April was the most successful so far this year from the standpoint of families settled, according to a statement issued by the Canada Colonization Association. During the month 81 families were settled throughout the Dominion on 19,249 acres of land, bringing the total of settlements from the first of the year up to 224, on 46,207 acres.

There are in Alberta today 77,192 farmers who have 834,324 horses in use and 10,225 tractors. In Saskatchewan records show 116,763 farmers with 1,199,566 horses and 24,367 tractors. Manitoba has 51,300 farmers with 256,480 horses and 10,833 tractors. The survey would indicate that while the horse is yet far from being a back number on Western Canadian farms, the day of the tractor has definitely arrived.

Miss Jean Cameron, who came to her parents from England at the age of four, at ten commenced trapping in the district of her father's homestead. Today, at the age of 21, she finds it quite a lucrative and congenial pursuit, and quite superior to any occupation which would keep her in the city. She follows a trap line within a ten mile radius of her house and her catch includes coyote, lynx, weasel and fox.

A record passage by a freighter, and one that has only been expected of a passenger ship, was recently accomplished when the Canadian Pacific Cargo steamship "Beaver" docked at the Surrey Commercial Docks, London, nine days after leaving Montreal. The trip was the first out of Montreal of one of the new "Beaver" vessels since this record will be clipped by from twelve to fifteen hours now that the Beaverburn and vessels of her class are routed via the Straits of Belle Isle.

Seed growing is one of the latest industries of Vancouver Island of steadily increasing importance. Vancouver Island sweet pea seed sells on the English market from three to four shillings per pound more than the California seed. The largest sweet pea seed farms is at Duncan, which produces yearly about two hundred tons. It is to be noted are employed each year to pick, clean and pack the seed, the excellence and high quality of which is becoming world-famous.

All the sport of fishing with a minimum of destruction of fish was realized recently when a party of members of the Inland Fish League of America enjoyed a fortnight's salmon fishing on the Cains River, New Brunswick. The party took 150 salmon and returned them all to the water except twelve. The fish ranged from 25 pounds to an average of fifteen lbs and were taken with barbless hooks and streamer flies. Very fine sport was enjoyed but the fish were in no way harmed, when returned to their native stream.

Terrible Eczema Goes Quickly

Strong, Powerful Yet Safe, Surgeon's Prescription Called Moore's Emerald Oil Has Astonished Physicians

Here is a surgeon's wonderful prescription now dispensed by pharmacists at trifling cost, that will do more towards helping you get rid of unsightly spots and skin diseases than anything you've ever used.

In skin diseases its action is little less than magical. The itching of eczema is instantly stopped, the eruptions dry up and scale off in a very few days. The same is true of "barber's" itch, salt rheum and other irritating and unsightly skin troubles.

You can obtain Moore's Emerald Oil in the original bottle at any modern drug store. It is safe to use, and falls in any of the ailments noted above is next to impossible. All druggists can supply you at any time.

See the "72" romp away from them all

While practically every car that runs is patterned after Chrysler—the illustrious "72" continues to romp away from and around them all in every phase of performance. Which can and does mean only one thing, of course—that since it can quickly be proven that Chrysler "72" excels every car which seeks to compete with it without a single exception, it unmistakably gives the greatest monetary and performance return which exists in the world motor-car market today.

Chas. Sartoris, Agent

COLEMAN BLAIRMORE BELLEVUE

OPPOSES INTRODUCTION OF CHESTER WHITE HOGS

Further active steps have been taken during the past week by the department of agriculture to check the activities of salesmen representing the Central United States Swine Company who have been taking orders for Chester White Sows and Boars in various sections of the province.

Officials of the department have been busy in a number of districts advising farmers to have nothing to do with the contract offered them by these salesmen. The proposition, which at first sight appears attractive, proves on investigation to be very unsound from the standpoint of the farmer and information secured by the department shows that farmers in a number of sections of the United States suffered heavy losses by becoming involved in similar schemes. The Bankers' Association has emphasized the warning being issued by the department by advising local bank managers throughout the province of the unsoundness of this scheme.

SUB-INSPECTOR DUNCAN

Sub-Inspector Duncan is now in charge of "B" Division of the Alberta Provincial Police at Red Deer, having been promoted from Blairmore. Though the circumstances of his incoming have been sorely saddened by the unexpected death at Lethbridge of his popular predecessor, the late Inspector Fisher, and by his burial at Red Deer, Inspector Duncan will be cordially welcomed by the Red Deer staff, and by the citizens of town and district, and will be assured of their confidence and support in the administration of his responsible duties. Mrs. Duncan and her junior will probably arrive over the week-end. Mr. Duncan came from Derbyshire, England, to Canada in 1903, to join the Mounted Police and joined the Alberta Provincial Police in 1918. He has served in quite a number of points in the West, Blairmore being his latest post before Red Deer—Red Deer Advocate.

I SAW!

O'Neill and Bartlett travelling south from Cowley the other day. There were nine other pigs in the car.

Tenders have been called for the standard grading of the Red Trail from Lethbridge to Pincher Station.

THE ROYAL BANK OF CANADA'S PRIZE FELLOWSHIP

The Royal Bank of Canada will grant a \$1000 Fellowship or a \$250 cash prize to the graduate or undergraduate student of a Canadian university who writes the best paper not exceeding 3000 words in length, on any one of certain specified subjects during the academic year of 1928-29. The student winning the prize may select either the \$1000 Fellowship at any university in Canada or \$250 in cash.

The papers must be submitted in triplicate through the economic department of the university which the student is attending, to the economist's department of The Royal Bank of Canada before March 1st, 1929. They should be typewritten and numbered. The name of the student should be submitted in a sealed envelope together with a statement from the university that the student is in full time attendance during the academic year 1928-29.

The winning paper becomes the property of the bank and at the option of the bank may be published as the bank sees fit. A non-winning paper retains the property of the student submitting it.

The subjects for the 1928-29 Fellowship contest will be as follows: "The Economic Aspect of the Saint Lawrence Waterways Plan."

"The Coal Problem in Canada." A discussion of the relationship between the Saint Lawrence Valley and the coal supplies of the East and West. "Sources of Federal Revenue and Their Relative Merits."

"The Study of a Particular Foreign Trade Area for the Development of Canadian Commerce."

The papers will be judged by the economist's department of the bank, and five or more of the best papers will be submitted to a committee of prominent men for final judgment.

The winning paper in the 1927-28 competition was written by Mr. Dermot A. Davies, of the University of British Columbia, on the subject, "Does Canada Need a Federal Farm Loan System?"

We started out last evening to attend the Ladies' Aid cup and saucer shower, but slipped on a banana peel donated by Bob Gray and smashed the dishes. We therefore ask to be pardoned for non-appearance.

Talk Peace To Have Peace

It is now fairly well recognized by students of international relations that one of the causes of war is to be found in the constant predictions of war, in references to "the next war," and surmises as to the varying forms which hostilities will take when nations again take up arms against each other. Those who constantly predict war are, says a college president, "not simply reporters of possible causes, they are actual causes of war, generally among the chief causes." That is, talk war and you have war.

Recognizing the correctness of this view, it is equally true that if the statesmen and leading men in all countries cultivate the habit of talking peace, instead of war, the world will have peace. "The oftener world peace is discussed among serious minded men and women," says a United States paper, "the better the prospect that war can be at last conquered," and it adds that the more intelligent leaders of democracy the world over can be brought together to consider steps for peace. As they gather from time to time at Geneva the brighter becomes the prospect that ultimately—perhaps sooner than most of us now believe—war will be abolished.

War after all is largely a state of mind. Let the people of any community or country begin to take a pessimistic view of things and constantly keep upon business depression and hard times, and it is inevitable that depression and hard times will come. Equally true is it that when people talk prosperity and adopt an optimistic tone, a revival in business and industrial activity follows. If, instead of thinking of "the next war" and talking war, people think and talk peace, then peace rather than war will prevail.

It has been reported that the Supreme Court of the United States has settled one hundred disputes between States, and in Canada our Supreme Court and the Judicial Committee of the Privy Council, have settled numerous disputes between Provinces and between Provinces and Dominion. Why should not disputes between nations be settled in a like sensible way? There is quite as much justification for two States or two Provinces to declare war and fight at each other's throats as there is for two nations to take such insane action.

War is a stupid business. It settles no issues. It comes about when a little group of men get into a quarrel with another little group. The law does not allow individuals to murder each other because they have a quarrel, and international law should, in like manner, outlaw war as a means of settling disputes between nations. War between nations is evidence that the leaders in these countries have not sufficient intelligence or sufficient patience to find a way out, so they select the finest men on both sides and set them pounding each other into the mud and blood and blowing each other to bits. The side that can stand this the longer is the wiser and gets its own way. There is no reason employed in the settlement.

Sir Ernie Howard, British Ambassador at Washington, in a recent address said: "If it can be proved to a man that if his country goes to war for any issue short of its absolute liberty of action at home, and in defence of that liberty, he will in future stand a very good chance of being bombed in his home; if we can show him that even though his country may be victorious, he will certainly have his taxes increased by 200, 300, 400 or 500 per cent.; if we can make it clear to him that for the sake of some issue to which he is probably an entire stranger he risks having to give up that new Ford next month, or even worse, that he may very probably be thrown out of work, as has been the fate of millions in Europe after the last war; then perhaps he may find war less pleasingly dramatic than may bestir himself to see that as a means of settling disputes between nations, it is better abandoned. So far as statecraft is concerned, the fear of war is the beginning of wisdom."

Some people may be inclined to doubt the value of Peace Talks, Disarmament Conferences, and treaties between nations outlawing war, but the fact is these are all factors in educating people as helping to create and develop a peace consciousness in all countries. And, let it be repeated and emphasized, the creation of such a consciousness is the strongest of all guarantees for the maintenance of peace.

Due To Irrigation

There are now eight irrigation projects in Southern Alberta covering a total acreage of 400,000, of which 138,390 acres are irrigable. One of the projects, the Lethbridge Northern Irrigation District, reports having doubled its occupied area within the past two years, trebled its production and increased its population two and a half times.

Medical Aid Caravan

A medical aid caravan will circulate through Northern Alberta this year. It has been sent out by the provincial department of health and is in charge of Dr. T. Washburn, superintendent of the University of Alberta hospital.

The beam cast by the latest monster beacon is estimated at 500,000, 900 candlepower.

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sour. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known is medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

Beautifying School Grounds

Because of the co-operation of the forestry farms at Indian Head, marked progress in beautifying school grounds with trees has been made this spring. A total of 165,000 trees have been brought in 167 school grounds throughout Saskatchewan. These included 67,700 maples, and 60,850 cypresses.

A man who had been asked to make his after-dinner speech as short as possible, arose and said:

"I am asked to propose the toast of Mr. Johnson, and I have been told the less said about him the better."

A British scientist predicts that, in time to come, men will be born toothless. We thought, in our ignorance, that they usually were born that way.

Tribute To British Flag

Union Jack Made Union Flag Post-haste Says South African Council

A great tribute has just been paid to the Union Jack, and satisfactorily enough from that country in which there has been some commotion about it—South Africa. A press dispatch from there says that native affection for this flag was eloquently demonstrated at a General Council of the Transvaal Territories which might be described as a native Parliament, when the Council unanimously passed a resolution that the Government be requested to permit the Union Jack to be flown with the Union of South Africa flag on all Magistrate's offices in the native territories. A Councillor asked the members not to discard their old friend the Union Jack, which had freed them from slavery and which was the only flag they knew. He did not object to the Union Jack, but pointed out that were it not for the Union Jack there would be no Union flag. We might also venture to say that were it not for the Union Jack there would be no Canada as there is today.

FIGHTING FOR BABY'S HEALTH

Is the Constant Care Of Every Young Mother

The young mother has a constant care in looking after the welfare of her little ones. Childhood ailments come on so sudden—sometimes without warning—minors' ailments may have a very sick baby on her hands before help can be obtained. That is unless she has Baby's Own Tablets on hand, and she proclaims them to be without an equal for sweetening baby's stomach, regulating his bowels, and thus driving out constipation and indigestion, colds and simple fevers, and making the dreaded teething period easy.

Baby's Own Tablets are an absolutely safe remedy. They are guaranteed to be free from opiates or any other narcotic drug which are so harmful to the future welfare of the baby. Mothers, if you value the life of your little ones give him Baby's Own Tablets when he is ill, or, better still, give him an occasional dose of the Tablets to ward off illness. The Tablets are sold by medicine dealers or will be sent to any address on post paid, at 25 cents a box by addressing The Dr. Williams' Medicine Co., Brockville, Ont.

Tractors On The Farm

Western Farmers Investing More Heavily In Motors For Heavy Duty

There are in Alberta today 77,192 farmers who have 834,324 tractors in use, and 10,225 tractors in Saskatchewan records show 116,702 farmers with 1,199,566 horses, and 24,367 tractors. Manitoba has 51,300 farmers with 356,480 horses, and 10,833 tractors. The survey would indicate that while the horse is yet far from being a back number on Western Canadian farms, the day of the tractor has definitely arrived.

Spare the children from suffering from worms by using Miller's Worm Powders, a most effective vermifuge with which to combat the common foes of the young and helpless. It is an excellent worm destroyer, and when its qualities become known in a household no other will be used. The medicine acts by itself, requiring no cathartics to assist it, and is so rough that nothing more is desired.

Parachute Lands Plane Safely

Invention Of California Man Proves Feasible In Test

A small biplane has been landed safely from 2,000 feet by means of a huge parachute, without injury to its pilot or damage to the plane. The experiment, performed privately at Tyece, Cal., was designed to prove the possibility of using a parachute for disabled planes to insure safety of passengers. A Jenny biplane, piloted by E. J. McKown, was used in the test.

The plane dropped about 2,000 feet with its motor idle, when the huge parachute, more than 100 feet in diameter, opened out. McKown stayed with the ship as its speed rapidly slackened. He said he felt only a slight jar when the plane landed and the folds of the parachute enveloped him. The biplane was not damaged except for a minor bend in the tail skid.

The parachute is the invention of Charles Roderick, San Francisco, who with numerous other ailments, expressed complete satisfaction over the result of the experiment.

Special delivery stamps are manufactured for 18 cents per thousand.

A reliable antiseptic—Minnor's.

Progress Has Been Made

Sending Messages By Beam System Is Marvel Of Speed

What beam wireless has done for long-distance communication was explained by J. H. Thompson, chief engineer of the Marconi Wireless Company, to the members of the Montreal branch of the Engineering Institute of Canada, recently. "Using slides, the speaker produced a graphic picture showing a telegraph operator at Drummondville, Quebec, using an instrument resembling an ordinary typewriter and sending messages at the rate of 150 words to the minute, to be received almost instantly by an operator at Dorchester, England."

Mr. Thompson illustrated the progress made in wireless transmission by showing the crude instruments used in the early days of wireless, the progress having been so rapid that equipment of stations used 15 years ago is not in use today. The beam system itself, he said, was the result of experiments by which all the energy available at the sending station was successfully sent in one direction thus establishing a beam of energy.

Seed Growing In B.C.

Industry Of Vancouver Island Rapidly Increasing In Importance

Seed growing is one of the latest industries of Vancouver Island of steadily increasing importance. Vancouver Island sweet pea seed sells on the English market from three to four shillings per pound more than the California seed. The largest sweet pea seed farm is at Duncan, which produces yearly about two tons. From 15 to 20 women are employed each year to pick, clean and pack the seed whose excellence and high quality is becoming world-famous.

When Holloway's Corn Remover is applied to a corn it kills the roots and the callous comes out without injury to the flesh.

B.C. Grows Bermuda Onions

Bermuda onions have been successfully introduced into British Columbia, and will be grown for the early markets from seeds imported from the Southern States. Last year eighteen acres were planted at Kelowna in an experimental way with satisfactory results. The onions cured well and yielded eight tons per acre. The acreage has been greatly increased this year. The crop should begin to move to market about July 1.

Some men are sentenced to hard labor for life and some do it of their own accord in order to make ends meet.

ECZEMA RASH ON HANDS

Troubled For Three Years.
Healed by Cuticura.

"I was troubled with eczema on my hands for three years. It appeared in a rash and then formed blisters. It troubled me much worse in winter so I could hardly put my hands to anything. My hands were terribly inflamed and disfigured. I had to wear old gloves to keep from scratching myself. I saw a Cuticura Soap and Ointment advertisement and sent for a free sample. I got relief from it so I bought more and after I had used them for three months I was healed. (Signed) Miss Beatrice Allen, Highwater, Que., Can."

Use Cuticura Soap, Ointment and Talcum for daily toilet purposes.

Sample Free by Mail. Address: Cuticura, Dept. 100, P.O. Box 100, Portland, Me., U.S.A.

OCEAN STEAMSHIP SERVICE

White Star Line Paying Particular Attention To The Canadian Trade

The importance of the Canadian route was a point strongly emphasized by Lord Kylesant at the annual meeting of the White Star Line held in London, Eng., on May 10th, according to cable despatches to the White Star Line in Montreal.

Lord Kylesant, chairman of the Board of Directors, and an outstanding figure in world shipping, recalled the days of 1871, when the S.S. Oceanic inaugurated the White Star Line Steamship Service across the Atlantic, and from that date he traced, by progressive steps, the development of the company.

The shareholders of the company now number about 15,000, he said, "and after providing for the depreciation of the fleet, and paying the dividend on the preference shares, we recommend a dividend of six per cent. on ordinary shares and the balance carried forward."

"There was," he said, "a slight increase in the number of passengers travelling to and from the United States of which we secured a fair share," and from this point he went on to state that "we have, for some time past, been giving our most serious consideration to the important question of the construction of a new express mail vessel so that we may continue to maintain the position and traditions of the White Star Line in the North Atlantic trade."

Lord Kylesant announced that the company has under construction at Belfast a "passenger motor vessel" of over 25,000 tons which we expect to put into commission in the Fall of 1929. She will be not only the largest passenger ship engaged in the New York-Liverpool route but also the first motor passenger vessel to be placed in that service.

"We have," he continued, "given particular attention to the requirements of the Canadian trade. In addition to our regular service from Liverpool to Quebec and Montreal, in which we have placed the new Laurentic, we have established a service from London, Havre and Southampton to Quebec and Montreal, so as to connect more especially to south of England and continental passengers travelling to and from Canadian ports on this service."

"From Channel ports we have placed the Albertic and the Megantic, the former being the largest ship to Montreal."

After mentioning that the White Star Line have transformed the Adriatic, 24,500 tons, into a cabin steamer, thereby having the largest cabin steamer in the world, Lord Kylesant dwelt on the importance of the tourist trade cabin traffic. In effect, he said, that this accommodation has enabled many with relatives in Europe, but the United States immigration restrictions have reduced this traffic to comparatively small proportions.

"The Dominion of Canada also has imposed regulations upon immigration from the continent. The flow of emigrant traffic across the Atlantic has been thus much curtailed and a valuable source of revenue for vessels adapted to carry large numbers of emigrants has been greatly diminished. We hope that in time, restrictions may be considerably modified, at least in favor of settlers of British stock."

Mr. Derek Oldham, the English agent, is telling a good story against himself. One day recently he was stuck in a traffic block and was sitting in his car practising singing scales. He did not realize that the windows of the car were down, and he suddenly became aware that the United States immigration restrictions have reduced this traffic to comparatively small proportions.

"I was a Cuticura Soap and Ointment advertisement and sent for a free sample. I got relief from it so I bought more and after I had used them for three months I was healed. (Signed) Miss Beatrice Allen, Highwater, Que., Can."

A man could never learn a great many things if he didn't think that he already knew them.

For Hay Fever—use Minard's.

The average man prides himself on the possession his neighbors can't afford.

Swedish Air Service Safe

No Damage Or Loss In Three Years Of Operation

Three years of operation without an injury to a passenger or damage or loss to merchandise or mail is the record of AB Aerotransport, the corporation that carries on all commercial aeronautics in Sweden. The company has just announced that during this year 622 of the 640 planned trips were performed. It is subsidized by the government, and conducts regular air service during the summer months, between Stockholm, Helsingfors, Malmö and Amsterdam, and assists a German concern in operating the latter's line from Stockholm to Berlin. The route covered probably will become a stage of the London-Leningrad line.

The Oil For the Athletic.—In rubbing down, the athlete will find Dr. Thomas' Electric Oil an excellent article. It renders the muscles and sinews pliable, takes the soreness out of them, and strengthens them. It strains that may be put upon them. It stands pre-emptive for this purpose, and athletes who are using it are using it to testify to its value as a lubricant.

Increase In Acreage

Increase in acreage of every grain in the Lethbridge Railway division, with an increase of over half in rye, is shown by the first crop report of the Canadian Pacific Railway.

The only thing a man wants, after he gets all the money he needs, is more money.

How Much Water Should Baby Get?

A Famous Authority's Rule
By Ruth Britain

Baby specialists agree nowadays, that during the first six months, babies must have three ounces of fluid per pound of body weight daily. An eight pound baby, for instance, needs twenty-four ounces of fluid. Later on the rule is two ounces of fluid per pound of body weight. The amount of fluid absorbed by a breast fed baby is best determined by weighing him before and after feeding for the whole day, and it is easily calculated for the bottle fed one. Then make up any deficiency with water.

Giving baby sufficient water often relieves a feverish, crying, upset and restless baby. If it doesn't, give him a few drops of Fletcher's Castoria. Castoria relieves all the troubles of children such as colic, cholera, diarrhea, gas on stomach and bowels, constipation, and all the troubles of sleep, underweight, etc. Leading physicians say there's nothing so effective as it. It's surely a vegetable—no castor oil. The amount of fluid absorbed by a breast fed baby is best determined by weighing him before and after feeding for the whole day, and it is easily calculated for the bottle fed one. Then make up any deficiency with water.

Just a word of caution. Look for the signature of G.B. on the package so you can be sure to get the genuine. The forty cent bottles contain thirty-five doses.

WOULD AMEND THE DOMINION ELECTIONS ACT

Ottawa.—Parliament will address itself next session to the amending of the Dominion Elections Act if the report of the committee on privileges and elections is adopted by the House of Commons.

The committee, under the chairmanship of J. J. Denis, Liberal, Joliet, considered their report, the fruit of several weeks of investigation into the Athabasca elections of 1926, where an inquiry by Mr. Justice Clarke of Edmonton, established that corrupt and illegal practices had taken place.

The committee will recommend to the House that since the report of Mr. Justice Clarke discloses that the cause of the corrupt practices in Athabasca was due to the partisanship, ignorance and incompetency of certain election officials, the auditor-general should submit to the Department of Justice a full statement of the payments made to the officials with a view to instituting proceedings for the recovery of the amounts so paid to such officials, if the law provides for such action.

It is also recommended that a special parliamentary committee be appointed next session to examine the evidence and deliberations of the present committee on privileges and elections, to study the Dominion Elections Act and to give special attention to the method of selecting returning officers and the preparation of voters' lists.

Further, it is urged that the chief electoral officer should recommend to the proper authorities that prosecutions be taken against all violators of the Dominion Elections Act.

Civil Aviation in Italy

Development is Rapid and Country Holds Third Place in World

Rome, Italy.—Italy now ranks as the third country in the world for civil aviation. It comes immediately after Germany and France, in the order given, and is ahead of England, which occupies fourth place.

By the end of 1928 Italian air routes will total 2,915 miles over which daily passenger service in one direction will be effected. The whole field of civil aviation, even since Italy Balbo became Under Secretary for Air, has been developing at such amazing speed that many miles already have been added to the total number of air routes.

Vote Sum For League

Ottawa.—The House passed a vote of \$165,968 for Canada's contribution to the League of Nations. Hon. Hugh Guthrie brought up the question of German currency held by the Canadians, which had been repudiated by the German Government. The Prime Minister pointed out that before the Government could do anything in such a case it would have to consider the whole question of speculation, which would be very difficult indeed.

To Aid Mental Hygiene Research

Toronto.—The Laura Spelman Rockefeller Memorial, founded by John D. Rockefeller, has announced its intention to assist mental hygiene research in Canada by the grant to the Canadian National Committee for Mental Hygiene of \$150,000 to be spent during the next five years. This is conditional upon the raising from Canadian sources of an additional \$250,000 during the same period.

Rumor Is Denied

Winnipeg.—Rumors in circulation to the effect that he had been offered the presidency of the University of Alberta were denied by Hon. John Brecken, premier of Manitoba. "The rumors are without foundation," he declared.

Complain About Expenses

Ottawa.—Complaints of Canada House were heard in the House when a vote of \$70,000 for contingencies and \$30,000 for salaries for the high commissioner's office in London were under discussion. After considerable debate, the item carried.

Turco-Italian Treaty

Rome.—Premier Mussolini and the Turkish Minister Süad Hey, have signed a five year bilateral treaty binding Italy and Turkey to neutrality, arbitration and conciliation.

Tornado Near Kansas City

Kansas City, Mo.—A tornado struck Englewood, a suburb between here and Independence, Mo. Two streets were reported wrecked. Ambulances were sent to the scene.

Operate On Cost Basis

Alberta Wheat Pool Elevators Adopt New Policy

Calgary.—Wheat Pool elevators in Alberta will be operated on a cost basis to patrons. This decision was reached by a full attendance of Pool delegates in convention here.

The new policy laid down will represent something new in co-operative effort in Canada, if not in the world. It means that the members will be charged only the bare cost of operating the elevator facilities.

When they haul their grain into Pool houses no service or elevator charges will be made. At the end of the fiscal year the actual operating cost will be available and will be deducted from the final Wheat Pool payment.

This change in elevator policy was recommended to the delegates by the directors. The proposal was to eliminate handling and service charges upon delivery of the grain to the Pool elevator and deduct the actual operating cost on a per-bushel basis from the final Wheat Pool payment.

Would Provide Work For Ex-Service Men

Resolution Favors This As Best Memorial To Ex-Halg

London.—The ex-service men at the British Legion conference passed a resolution to the effect that the best tribute that could be paid to Ex-Halg would be providing work instead of relief for ex-service men.

Lady Halg was present and said that this would have met with the approval of her husband, whose desire would have been, not a status of himself, but that the men who had fought in the war should be helped.

It is understood that the resolution and Lady Halg's remarks were not intended to deprive the idea of a national memorial to the late Field Marshal, which the Government is now considering.

British ex-service men will attend the conference of ex-service men, including former enemies, to be held at Luxembourg next September.

Inspection Satisfactory

Objection To Examination Of Immigrants By Canadian Doctors Unwarranted

Toronto.—"We have examined every single objection that has been raised against the examination overseas by Canadian doctors of assisted passage immigrants and we have not found one that will hold water," declared Dr. David Clark, assistant Deputy Minister of the Department of Natural Health, in an interview here.

Articles appearing in certain sections of the British press against the policy of having Canadian doctors conduct the examination of immigrants were full of inaccuracies, he said. "The causes of a decrease in immigration to Canada this year," continued Mr. Clark, "lie deeper than the medical inspection policy. One of the causes for the decrease is the feeling from Britain, he felt, was the feeling of increasing optimism there."

Replace Provincial Police

R.C.M.P. Have Taken Over Work Of Saskatchewan Force

Saskatoon, Sask.—The Saskatchewan Provincial police force passed into the pages of history of the northwest, their activities being taken over by the Royal Canadian Mounted Police, the Saskatchewan sub-division being under the direction of Inspector John Kelly, who transfers from the detached force to the "scarlet riders." Some other members of the S.P.P. will join the R.C.M.P., while the following members of the latter force, located at the Saskatoon detachment for some time, will carry on: Sergt. A. Drysdale, Detective Sergt. C. E. Hildyard, and Constables T. Theriault and F. W. English. The first two have a "long service record in the force, dating back to the old Northwest Mounted days."

Inquiry Is Ordered

Ottawa.—The parliamentary immigration inquiry has approved a motion for a return showing all special immigration permits issued from January 1, 1920. The report will show the number of permits, officially termed letters of admission or assurance granted to members of parliament and others.

Applott Conciliation Board

Ottawa.—A conciliation board has been appointed to investigate the carpenters' strike in Calgary. Mr. Justice Clarke will be chairman. James H. Gordon will represent the employers, Robert Hewitt, the men. The men are asking for an increase of 12½ cents an hour.

U.S. Honors War Dead

Thousands Attend Memorial Service At Arlington Cemetery, Washington

Washington.—The White Crossed rolling hills of Arlington beckoned thousands of citizens, soldiers and sailors of the national capital for the annual memorial service, May 30, at the graves of the fallen heroes of all wars.

For the first time since he entered the White House, President Coolidge led the nation in memorial day exercises outside of Washington. His annual tribute was paid in an address near the spot where Abraham Lincoln made his immortal address in Gettysburg, Penn.

Practically the entire day was set aside for services arranged by patriotic and veterans organizations. A feature was a parade of veterans of all wars through the downtown streets and over to Arlington.

Sir Esmé Howard, British Ambassador, and Hon. Vincent Massey, Canadian minister, took part in the exercises in Arlington cemetery, where they decorated the graves and the Cross of Sacrifice erected by the Canadian Government in memory of Americans who died while serving as members of the Canadian corps.

POOR SALARIES PAID SCIENTIFIC AGRICULTURISTS

Ottawa.—A motion to go into supply in the House of Commons prompted C. G. Cooté U.F.A., Macleod, to protest that salaries paid to men in the scientific and technical positions of the department of agriculture were inadequate.

Mr. Cooté declared that the "department of agriculture was losing the professional men because of the low salaries which were paid. He gave a comparison between salaries paid in the United States service and in the Canadian to illustrate the fact that Canada paid much less than the U.S."

The professional service of Canada said Mr. Cooté, must compete with that of the U.S. for men. As things now stood many Canadians went to the U.S. to take post-graduate university courses. Frequently they remained there because of the fact they could obtain more money in that country.

Mr. Cooté compared salaries paid in the cereal division of agriculture with those paid in the geological survey. The figures he quoted showed that the salaries in the cereal division were lower. Canada could not afford to lose her scientific agricultural men, he declared. Agriculture was Canada's basic industry and wheat growing was the most important phase of that industry.

J. S. Steedman, Liberal-Progressive, Squir, declared the question of the salaries paid to scientific agricultural men was one of the most important matters which had come before the house this session. It should be realized that the prosperity of Canada depended largely on her agriculture, yet the ravages of disease were spreading in certain quarters of agricultural Canada, and it was of prime importance to the Dominion as a whole that adequate salaries be paid our scientific agricultural officials so that their research efforts could be used for the benefit of agriculture in this country.

May Receive Appointment

The possibility that a Canadian judge will take the place on the permanent court of international justice of The Hague left vacant by the resignation of John Bassett Moore, of the United States, is now openly acknowledged in well-informed circles at Washington. Already, it appears, the name of Mr. Justice Riddell, of Toronto (above), as well-known almost in the United States as in Canada, is mentioned as a likely successor to the American jurist.

Bill Defeated In Senate

Government Measure To Amend Naturalization Act Thrown Out In Upper House

Ottawa.—The Government bill to amend the naturalization act was killed in the Senate.

The bill would have placed authority for the granting of naturalization certificates in the hands of the secretary of state without its being necessary for the applicant to make prior application to courts, as now required.

The bill met stormy opposition in the Commons.

It was discussed at some length by the Senate recently in committee of the whole. Eventually Senator Laird moved that the committee rise. This was carried by 38 to 20. The effect was to kill the bill.

Senator Dandurand, Government leader, explained the measure, which he said would simplify procedure and prevent abuses. The state department had a well-trained staff to handle the work. Experience had shown that court inquiries on naturalization were absolutely useless.

A Martyr To Science

Noted Doctor Is Latest Victim Of Scientific Research

London.—News was received here of the death of Dr. William Alexander Young, director of the Gold Coast Colony, Africa. Dr. Young was a co-worker with Dr. Hideyo Noguchi, who died recently at Accra, of yellow fever, resulting from his researches into the origin of that disease.

It is believed here that Dr. Young contracted the disease in the course of his researches with Noguchi. Young was of Scotch descent and had a long experience with tropical diseases. In 1924 at the comparatively early age of 35 he was appointed to his present position.

Record During March For Canadian Roads

Railways Carry More Freight Than In Any Previous March

Ottawa.—The Canadian railways carried more freight during March 1928, than in any previous March. Gross revenues also were the largest earned in March, exceeding those of March, last year, by \$2,155,479, or 53 per cent. Although operating expenses were heavier than in 1927 by \$1,252,220, or 3.9 per cent, net revenues were larger by \$883,259. The large carry-over of grain has been an important factor in the heavy traffic and earnings of the railways during the first quarter of 1928, the movement of grain to the Pacific ports being particularly heavy. The March payroll was heavier than in 1927 by \$1,037,133, and the average number of employees increased by 3,022.

The Canadian National Railways increase in gross revenue, compared with March, 1927, was \$766,717, or 4.5 per cent, for an increase in freight of 10.2 per cent, and a decrease in passenger traffic of 6.3 per cent.

The Canadian Pacific Railway gross returns for March were heavier than 1927 by \$1,551,348, or 8.8 per cent. Passenger and express revenues showed decreases but all other accounts were larger, freight by 12.5 per cent.

Has a New Mission

Premier King Requested To Arrange For Necessary Rainfall To Ensure Good Crops

Ottawa.—Premier King has a new mission. The latest request is that he shall appoint himself rain-maker extraordinary to Saskatchewan.

"We have had a wonderful seedling time and everything is now in the ground in good shape," runs a letter from Saskatchewan, which, Senator Laird read in the Senate recently. "I wish you would draw the attention of the Prime Minister to the desirability of arranging for a copious supply of rain each year for the next three weeks, and we will guarantee to deliver the greatest crop Western Canada has ever produced."

Ontario Joins Manitoba

In Legal Fight With Federal Government Over Regulation Of Securities

Toronto.—An announcement has been made by Hon. W. H. Price, Attorney General for Ontario, that the province is joining with the province of Manitoba in the latter's legal fight with the Dominion Government over the question of certain rights in connection with the regulation of securities.

Edwin Bayly, K.C., Deputy Attorney-General, will leave for England June 15, and will appear with Hon. W. H. Craig, K.C., counsel for Manitoba, when the case is heard by the Privy Council early in July.

COOLIDGE MAKES STRONG PLEA FOR WORLD PEACE

Gettysburg, Pa.—In the first speech to be delivered by a president on the Gettysburg battle field since Lincoln's immortal address, President Coolidge, in connection with the Memorial Day exercises, voiced a plea for the abolition of war as the fittest tribute to the war dead of America.

At the same time he demanded less indifference to crime in the U.S. and condemned what was described as a tendency of the legislatures to exonerate the powers granted to them by the constitution. These things, he said, tended to weaken the regime of law and breed turbulent populations, prone to war.

Declaring the "one thing we want above all for ourselves and for other nations is a continuance of peace," Mr. Coolidge reviewed negotiations by the state department for treaties against war and for arbitration treaties. The broad proposal that the United States and France sign a treaty to renounce war was described by the President as having developed into "one of the most impressive peace movements that the world has ever seen."

"It is my earnest hope that success may crown the negotiations now in progress and that the ideals which have inspired the French minister of foreign affairs and the secretary of state of the U.S. in their joint efforts to find a solution of the problem of peace, may find a solution of the problem of peace."

FLAG QUESTION CAUSE OF RIOTING AT CAPE TOWN

Cape Town, South Africa.—Reinforcements of police from all parts of the peninsula were drafted into Cape Town to cope with the threatening situation which developed when a demonstration, said to have been inspired by unrest among colored workers, ran counter to the celebration of the 16th anniversary of the establishment of the Union of South Africa.

The celebration was historic because for the first time the new national flag was flown along with the Union Jack, and President J. H. M. Hertzog and General Jan. Christian Smuts, former premier and present leader of the opposition, appeared on the same platform and delivered patriotic speeches.

Scenes witnessed were re-enacted when excited crowds filled the streets and several ugly incidents occurred. Colored people were prominent in the demonstrations and automobiles carrying miniatures of the New Union flag were partially wrecked, but vehicles which carried miniatures of the Union Jack were not touched.

The police were forced to charge the mobs several times. A dozen police and a large number of colored people were injured, while 90 persons were arrested.

In his address at the celebration Premier Hertzog said the new flag was a "lasting symbol of the independence of the Union of South Africa."

Referring to the flying of the new Union flag alongside the Union Jack, General Smuts declared the two emblems represented the equality of the races and the indissoluble brotherhood which had flowered out of the enmities and struggles of the past.

Stops Operations Of Bogus Stock Salesmen

Ontario Government Has Put Many Out Of Business

Toronto.—More than one hundred brokers, of doubtful repute, and high pressure security salesmen have been put out of business recently as the result of the cleanup campaign inaugurated by the Ontario Attorney-General's Department when the Security Frauds Prevention Act was put into force recently.

According to the department some of the offenders have been jailed, others are out on bail pending appeal and a majority have been deported to the United States, from whence they came.

Receive Degrees At McGill

Honorary Degree Conferred On Elve Distinguished Candidates

Montreal.—The honorary degree of Doctor of Laws was conferred on five distinguished candidates at the 1928 convocation of McGill University.

The recipients were: Sir Wilfrid Grenfell, former Lord Chancellor; Rev. Canon Cody, Toronto; William Reid Blair, director of the New York Zoological Park and a graduate of McGill; George Isles, writer, and Julian C. Smith, financier.

Sir Arthur Currie, principal, had not sufficiently recovered from his recent illness to be present.

Princes Plan African Trip

London.—The Prince of Wales, who plans a tour of Africa next autumn, will be accompanied by the Duke of Gloucester (Prince Henry), and the Royal brothers will be absent for four or five months. The date for the departure has not been set, but it is their aim, after visiting Mombasa, Kenya, Uganda, Tanganyika, and Rhodesia, to spend Christmas in Cape Town.

Inmates Of Canadian Prisons

Ottawa.—Canadian penitentiaries have at present a total of 2,580 inmates. Of this number, 2,530 are men, and 41 are women. Canadian born number 1,014, and 414 are foreigners. This information was given in the Senate in reply to a question by Senator J. P. B. Cusgrain.

Against Fast Time

Vancouver.—Vancouver residents will continue for the remainder of this year to work and play on standard time. By a vote of more than four to one the citizens today voted against adoption of daylight saving time for the summer months.

Germany has a shortage of skilled labor.

BLAIRMORE OPERA HOUSE SOLD

During the week a deal has been put through, whereby the opera house property has been purchased from the Blaimore Opera House Company by the Father Lacombe Council of the Knights of Columbus.

The deal was filled on Tuesday. We understand that the building is to be thoroughly renovated and made fit and suitable for the various activities of the new lodge.

"DRUMS OF LOVE"

D. W. Griffith's greatest picture since "The Birth of a Nation" will be shown at the Orpheum Theatre on Saturday, matinee and evening, entitled "Drums of Love." It is a mighty spectacle of storm-tossed passions, and combines the drama of "Way Down East," the unforgettable romance of "Broken Blossoms," and the magnificent sweep of "Orphans of the Storm." It has a cast of 2000 and gives the great master a canvas worthy of his brush.

DOESN'T TAKE AS LONG TO GET FIXED UP AS WE IMAGINED

A little joke in our last week's issue was taken to heart by our local photographer with the following result:

Blaimore, Alta., June 6, 1928. The Blaimore Enterprise, Blaimore, Alta.

Dear Sir—I wish to correct your statement in May 31st issue in which you stated that it took three hours for a couple to be photographed.

I think I know the occasion that you refer to and if you would investigate the situation a little farther you will find that there were three wedding parties on that day, one of which was a double wedding. Each group took several sittings and if you will find a photographer that can arrange and photograph a merry-making wedding party in less time than fifteen minutes for each sitting, I stand the drinks.

Unfortunately you don't understand the laborious studio work and I think that I take as many, if not more, groups than any photographer in the province, so I should know something about it.

I will not go into detail as the technical, optical and chemical stages might bore you, but I will defy any man to beat me for promptness in any photographic work.

Each wedding party took precisely forty-five minutes and not three hours as it was stated.

THOS. GUSHUL,

Photographer.

The ladies of Greenhill Temple, Pythian Sisters, will hold a tea and sale of home cooking in the Lodge Hall, on Saturday, June 9th, from 3 to 6 p.m.

George Passmore, junior, left by last night's train for New York, where he will join his brother Virgil. George was accompanied by Mark Levanille, the local operator, who is enroute to visit in the Maritime Provinces.

Local and General Items

Because of the lack of news matter this week, we are obliged to fill up our paper with advertising.

The man who is looking for a soft place without honest labor can usually find it right under his hat.

Sergt. Jones and family arrived from Lethbridge on Sunday and have taken up residence at the court house.

"No, sir, we're not entitled to your job printing because we do not peddle the class of bull that appeals to you!"

Rev. W. H. Irwin, of Macleod, formerly of Bellevue, will take charge of the United church work at Taber.

We congratulate Mr. Donald Gladstone Mackenzie, local barrister, upon his appointment as King's Counsel.

It will be fifty years on September 15th since the first Northwest Mounted Police came to Pincher Creek.

Miss Elva Easterbrook, of Cowley, was a winner in the vocal contests at the recent musical festival at Lethbridge.

Miss Milda Bond, who has been taking a course in nursing at the Holy Cross hospital, Calgary, is home on a brief holiday.

A recent issue of Maclean's Magazine places the Old Man River in southern British Columbia. We have never missed it here.

Constable Mike Moriarty, of the A.P.P., well known to Pass residents, has been transferred from Big Valley to Carbon, Alberta.

General Motors of Canada, Limited, have decided to build a million-dollar manufacturing and assembling plant at Regina.

The federal government will erect a hospital on the Blood Indian Reserve near Cardston, to cost in the neighborhood of \$50,000.

Jack Giola, proprietor of the Bellevue Inn, has this week purchased a new "72" Special Chrysler through the local agent, Mr. C. Sartoris.

MISS CHARDON'S PUPILS SUCCESSFUL

Miss Chardon is deserving of congratulations upon the success of ten of her pupils entered for examination recently under the Royal Academy of Music, one hundred per cent having passed. Of the ten, five made distinction and three honorable mention. The results were as follows:

Lower Division — Beatrice Trono, Blaimore, distinction; Jean Cruickshank, Hillcrest, distinction; Frances Linnville, Blaimore, distinction; Velma North, Blaimore, pass.

Elementary — Doris Hales, distinction; Grace Wheatcroft, distinction; Doreen Chappell, honorable mention; Norah McLeod, Coleman, pass.

Primary — Margaret Murray, Frank, honorable mention; Freda Antrobus, Coleman, honorable mention.

Automobiles are so common nowadays, that very few beds require making up.

A taxi driver's life must be very monotonous. He seldom has any change.

The Fernie Elks' carnival will be staged on Monday, Tuesday and Wednesday next.

Roddie McDonald won a decision over Jack Reddick in a ten-round boxing bout at Drumheller on Monday.

Sunday, June 24th, will be observed by the Salvation Army throughout Canada as Farewell Sunday.

John McNeely, formerly of Medicine Hat, had \$20,000 in bonds stolen from his safety deposit box in Vancouver.

Ross Snyder, of Calgary, and Dan McMillan, of Lethbridge, stopped here over night, returning from Cranbrook.

We understand that the Knights of Rhythm, local dance orchestra, are booked to play at Waterton Park on Saturday night of this week.

A dance will be held in the Moose Hall here on the night of Wednesday, June the 27th, under the auspices of the Canadian Labor Defense League. The Altmatt orchestra will furnish music.

Mrs. James McKinney, of Claresholm, will leave in about two weeks to attend the world's W.C.T.U. convention being held in Switzerland. Her trip will take her through England, France and Italy.

Joe You, the popular chef at the Chardon Cafe, better known as King George, was the recipient of messages of congratulations from all over the world on Monday, the occasion of the king's birthday celebration.

Judge Jackson, of Lethbridge, presided at a district court sitting here on Tuesday. The judge was glad of the opportunity of spending a day in the Pass metropolis, returning from the golf tournament at Fernie.

A town is made beautiful and attractive by each one doing his or her share. If each one keeps his lawn well cut and trimmed, with flowers here and there, and surroundings generally neat and clean, the whole town benefits. It's a case of "You in your small corner and I in mine."

Some splendid work is being accomplished by the government road grader, in charge of Mr. McCulloch, on the road between Crows' Nest Lake and Crows' Nest Station. In a few days this section of the road, forming the connecting link with the splendid roads of British Columbia, will be completed and in good condition. The road west from Crows' Nest to Natal has been all graded and partly surfaced, as well as about nine miles of the road north from Natal along the Elk.

Fifteen years ago, Luther McCarthy, of Ohio, died in the prize ring at Calgary, when he went down in a boxing bout with Arthur Pelky, of Calgary, in 143 minutes after the first round started.

IN MEMORIAM

In loving memory of Harry Julius Benson, died June 5, 1925.

"As we loved him, so we miss him. In our memory he is near. Loved, remembered, longed for always."

"Bringing many a silent tear." Ever remembered by his loving wife and daughter.

TOWN OF BLAIRMORE CLEAN-UP DAY

NOTICE is hereby given that Monday next, June 11th, will be observed as Clean-Up Day within the Town of Blaimore, when all premises are to be cleaned up to comply with the requirements of the Public Health Act.

All rubbish and inflammable material must be gathered and removed to the maining ground and destroyed. Parties failing to properly observe the day or depositing refuse in other places than the nuisance ground will be prosecuted.

By Order of

THE TOWN COUNCIL.

PROVINCE OF ALBERTA DEPARTMENT OF MUNICIPAL AFFAIRS

NOTICE is hereby given that unless all arrears of taxes imposed in respect of any parcel of land situated in Improvement Districts Nos. 71, 100, 101, 130 and 131, in the Province of Alberta, are paid on or before the first day of July next, such land will be dealt with under the provisions of the Tax Recovery Act, being Chapter 122, Revised Statutes of Alberta, 1922, with a view to obtaining Certificate of Title in the name of the Crown in the right of the Province of Alberta in respect of such parcel.

W. D. SPENCE, Deputy Minister, Edmonton, May 30th, 1928.

TAX RECOVERY ACT

TOWN OF BLAIRMORE, ALBERTA

NOTICE is hereby given that if all arrears of taxes as at December 31st, 1927, in respect of any parcel of land situated within the Town of Blaimore, are not paid on or before the first day of July NEXT, and will be dealt with under the provisions of the Tax Recovery Act, 1922, with a view to obtaining Certificate of Title in the name of the Town in respect of such parcel.

DATED at Blaimore, Alberta, this 14th day of May, 1928.

ARTHUR J. KELLY, Secretary-Treasurer.

THREE CANARIES — Two male and one female, Ash cages, for sale at bargain for the lot. Phone 317.

HOUSE FOR SALE CHEAP — Five rooms. Apply to The Blaimore Enterprise.

GOVERNMENT LIQUOR CONTROL APPLICATION FOR BEER LICENSE
